

LEGO STAR WARS PEARL GOLD C-3PO MINIFIG

PAPERCRAFT MODEL BY NINJATOES

C-3PO, HUMAN-CYBORG RELATIONS

Unlike many of the other characters, C-3PO (Threepio for friends) has been around from the very start of the **STAR WARS** saga.

Except in the LEGO version of the **STAR WARS** theme, which was launched in 1999, and only got its first C-3PO minifig a year later, in 2000.

This first 3PO version was a very pale, tan colour, but in 2008, the colour was changed to a darker, pearl gold colour.

And in 2012, 3PO was redesigned even further, and he even got coloured eye receptors!

Anakin would have been proud!

using thicker paper (160-200 gsm) is really recommended because of the wear and tear of the joints!
